

## Laptop Won't Connect to WiFi?

1. Use the globe at the bottom right corner of the screen to see the wireless networks available.
2. Click the cvslimited network.
3. Connect using the password cvsreset
4. Log into the laptop using your district email address and password.
5. Once you are logged in, click the WiFi icon at the bottom right corner of the screen.
6. Right click on the CVS network.
7. Click Forget Network.
8. Now you should be able to connect to the CVS network using your CVS username and password.
9. The CVS Limited network will be disabled shortly, so don't stay connected to that or you will lose access.
